

# Commercial Training Solutions

Electrical, Mechanical and Building Services

Maintaining a building and its facilities in accordance with ever changing technical legislation, means Facilities Managers and Building Services Engineers alike, require on ongoing update of various competency qualifications. Develop Training Ltd has put together a suite of training courses that keep staff up to date with the latest regulations in a wide range of disciplines.

*Our Burn Hall Training Facility*

Our commercial training solutions have been designed and developed specifically for Building Service Engineers and Facilities Managers who have the responsibility of ensuring the maintenance of electrical, mechanical and water facilities within buildings; such as heating, lighting, ventilation, air-conditioning, electrical distribution, water hygiene, safety systems, lifts and escalators.

All of our training events are run by experienced engineers and have been designed to enable the delegate to understand the requirements of the relevant Statutory Regulations. Our courses are regularly reviewed by our own staff as well as awarding bodies such as City and Guilds to ensure the service we provide to you is of the latest and highest quality in delivery.

To see the full range of Commercial Courses courses offered by Develop Training Ltd please visit [www.developtraining.co.uk/commercial](http://www.developtraining.co.uk/commercial)

## Electrical Services
